## EZ-HD08 Pole Setter

Place Poles  
Up to 45ft  
Uphill, Downhill  
or in the mud

Owned and Operated by a  
Disabled Vietnam Veteran

**Carry & Load Poles**

**Call for a  
Catalog & DVD**

**Cost Effective, Efficient,  
Faster, and able to go places  
that Digger Derrick can not!**

KDM Construction from Louisiana pulled 48 poles and reset 48 poles with cross ties in a single 8 hour period after the Arkansas ice storm.

*"The Pole Setter is easier to use than Digger Derrick,"  
Gene Kenney, forman for KDM Construction.*

With the heavy duty pole setter on a skid steer you can out-perform a Digger Derrick truck. It will go places a Digger Derrick will not, its more effective, its easier to maintain and will do the job that a Digger Derrick can not.

With the proper attachments you can set poles, dig holes, clear debris, cut brush and when you are done with it, its easy to sell. The EZ-Spot-UR Pole Setter makes a skid steer a super Digger Derrick at a fraction of the cost of a real one.

Why waste your money when time is important? The EZ-Spot-UR will help you get the job done. A Digger Derrick stuck in the mud will only cost you time and money and waste valuable crew man hours.

**Out-Performs  
Digger Derrick**

**Safe & Secure**
